TECHNICAL SKILLS

HTML	TailwindCSS
CSS	ReactJS
JavaScript	MySQL
OOPS	Redux Toolkit
React Testing	Bootstrap
Java	Git (Version Control)
Node.js	Express.js
Postman API	

EDUCATION

Chitkara University
COMPUTER SCIENCE ENGINEERING
2020-2024 CGPA - 9.79

SOFT SKILLS

Good Communication Skills
Problem Solving
Teamwork
Adaptability
Continuous Learning
Time Management

ACHIEVEMENTS

- Recognition in Meta Spark AR x Reskill**
Published an AR effect in Open Innovation Hackathon organized by Reskill x Spark AR. Got over 10k views in Instagram effect bunny_face816.
- 4-star Silver Badge in Java**
HackerRank
- 4-star Silver Badge in MySQL**
HackerRank

ORGANISATIONS

Member, **HAPPINESS CLUB**

PROFILE

I am a passionate and dedicated computer science student with a strong drive to craft user-friendly and visually captivating **web projects**. Actively seeking a platform to apply my innovative thinking, advance my programming skills, and evolve as a dedicated professional in the industry. **Detail-oriented** and **deadline-driven** person with a passion for **creative** and **innovative** solutions.

PROJECTS

Urban Harvest

- Urban Harvest connects to swiggy's **Live API**, so you always sees the latest menus, and prices etc.
- This project uses **React.js** combined with **TailwindCSS** to make a cool UI design.
- Redux** for a strong system to manage app's state, ensuring a smooth user experience with seamless transitions and data syncing.
- App features has **95% coverage** for testing using **React Testing Library** and **Jest**.
- Uses **Firebase** for sign-in/Sign-up and authorization.
- Live link** - <https://urban-harvest.vercel.app/>

Netflix (Clone)

- An entertainment website based on **React.js** that mimics the famous OTT Netflix Using data from **TMBD API**.
- Uses **Firebase** for sign-in/Sign-up and authorization.
- This project uses **React.js** for its re-usable components combined with **Tailwind CSS** for exceptional design.
- Integration of **Chat-GPT API**, that seamlessly provides search results with strong accuracy.
- Redux Toolkit** for managing the state across the website.
- Live link** - <https://netflixgpt0.vercel.app/> (PLEASE USE VPN)

ZigZag Store

- This is an food ordering website based on **voice commands** that lets you add items to your cart using your voice commands. For this I have used **Alan AI API**.
- This project uses **React.js** combined with **Tailwind CSS** as frontend part and Alan AI for pre-describing commands to ordering or sorting food.
- Live link** - <https://zigzagstore.vercel.app/>

CERTIFICATES

IBM - Introduction to Web Development with HTML, CSS, JavaScript (01/2024 - 02/2024)
Coding Ninjas Advanced Web Development(01/2021 - 06/2021)
Coding Ninjas Object Oriented Programming (01/2021 - 06/2021)
IBM - Getting Started with Git and GitHub (02/2024 - 03/2024)
OpenEDG JavaScript Essentials (03/2022 - 05/2022)
IBM - Developing Front-End Apps with React (03/2024 - 04/2024)
